

Pioche Weekly Record

THURSDAY, JULY 27, 1923.

Arrival and Departure of Mails

PIOCHE AND MILFORD.
Arrives daily, except Monday, at 6:30 p. m.
Departs daily, except Sunday, at 8:30 p. m.
PIOCHE AND ELY.
Arrives Tuesday and Saturday, at 6:45 p. m.
Departs Monday and Friday at 8:00 a. m.
PIOCHE AND HELENE.
Arrives Tuesday and Saturday, at 6:00 p. m.
Departs Monday and Friday at 8:00 a. m.
PIOCHE AND HIKO.
Arrives Tuesday and Friday at 6:00 p. m.
Departs Saturday and Wednesday, at 10:00 a. m.

POST-OFFICE HOURS.

8 A. M. to 7 P. M.
SUNDAYS.
6 P. M. to 7 P. M.
No money orders issued or letters registered after 6:30 p. m. and none on Sundays.
JOHN SHIER, P. M.

LOCAL INTELLIGENCE.

Commissioner Edwards departed for Helena on Monday.

For a fine cigar call on Sam E. Wertheimer.

Read the letter of our Washington correspondent on the second page.

Alten Ferguson was last evening married to Miss Dollie Butler at Hiko.

Don't forget that A. Werner will sell his entire household effects on Saturday, July 29th. Everything is in fine condition and almost as good as new.

Frosted fancy drinks at the Palace.

Eleven men comprise the force now employed at the Yuba mine and three at the Poorman.

Thursday last the blacksmith shop at the Onondaga mine, Royal City, was destroyed by fire, and the hoisting works had a close call.

If you want a dozen bottles of assorted Soda or Sarsaparilla at \$2.50, call at Thompson's.

R. E. Clark, the Desert Springs cattleman, is spending a few days in town. He says the recent rains will be the salvation of the cattlemen.

Alex. Thompson has just received a carload of Salt Lake Bottled Beer, Soda and Sarsaparilla, which he is rapidly disposing of.

Charles Ron is about to start up his furnace at Bristol and make a run on copper ore. There is quite an amount of ore there awaiting treatment.

Schumann, the photographer, is now ready to take photographs in the highest style of the art at his tent on Meadow Valley street. His stay will be short.

Step in and keep cool at the Palace.

The Record acknowledges the receipt of a copy of the Register of the University of Nevada, located at Reno, for the years 1893-94.

Mining Location Notices for sale at this office.

Wesley Williams was in from Royal City last week. He has not yet fully recovered the use of his arm broken a few months ago.

The house of S. E. Wertheimer has secured the exclusive handling for this section, of the celebrated McBryer whisky.

The locomotive does not haul wood to the Yuba mine anymore. Four-horse teams, engineered by George Warren, now do the business.

The celebrated McBryer whisky is the finest in the world. Families supplied. S. E. Wertheimer has the sole handling of this famous whisky.

Quite a number of the men lately employed in the mines here have taken to prospecting, and it would not be surprising if some good discoveries are made.

Fancy ice cold drinks at the Palace.

John Franks having purchased the residence formerly owned by Otto Stein, is making some extensive additions to it, which will make it one of the finest residences in town.

The only cold air refrigerator in town is at Wertheimer's sample rooms and all liquors are correspondingly cold.

Premature baldness may be prevented and the hair made to grow on heads already bald, by the use of Hall's Vegetable Sulfur Hair Restorer.

The finest bar liquors in the country are dispensed over the Palace bar.

The value of a good name was well exemplified the other day, when a man asked one of our druggists for a bottle of Sarsaparilla. "Whose?" inquired the clerk. "Whose? Why, Ayer's, of course. Ye don't suppose I'm going to run any risks with Hannah, do ye?"

It is stated that if a cow gets choked with an apple or potato, holding up its head and breaking an egg in its mouth is a sure cure. The same remedy is recommended for horses under similar circumstances.

For fine family liquors, call at the Palace.

James and Oliver Applewhite shot and killed John and Silas Glenn on their ranch near San Bernardino a few weeks ago. On the preliminary examination the Applewhites were discharged, the evidence showing that the killing was done in self-defense. James Applewhite years ago owned the ranch now occupied

by Joseph Conway, in Meadow Valley Wash, and is well known in this county.

The Palace is the coolest and pleasantest resort in town.

Salt Lake Beer at Thompson's, at the low price of \$2.50 for a dozen bottles.

Silver is ranging from 71 to 73, with small lots being purchased by the Government.

The Salt Lake mail did not arrive Tuesday evening, owing to a washout on the railroad between Juab and Milford.

Foster predicts that a storm wave will cross the western mountains by the close of the 29th, and that a warm wave will come to-morrow.

A local oracle has remarked that "it don't make a bit of difference what the newspaper says," but we particularly observe that a three-line item often causes much inquiry.—Lundy Index.

JOB PRINTING in all its branches, equal in style to any, done at this office.

Judge John T. Knox of San Bernardino has been granted a pension for a wound received 61 years ago in the Black Hawk War.

Read the list of bargains offered by the Cohn Dry Goods Co., Salt Lake City. It will be found on the first page of THE RECORD.

The latest fad in the East now is for the female who wears a straw hat to tip it like a man when meeting her acquaintance.

In Turkey they call the bicycle "the devil's chariot," and the Sultan forbids its use. Another point of difference between the pious Musselman and the infidel muselman.

For diphtheria, a French doctor states that lemon juice used as a gargle is a specific against this disease as well as other throat trouble. He has successfully employed this treatment for eighteen years.

W. W. Gingles, agent of the Con. Implement company at Milford, visited town last week and departed for home on Saturday night's stage. He reports everything in his line of business about at a standstill.

Our citizens are now firm in the belief that trouble never comes singly. First come the drop in silver, closing down the mines, then the destruction of the Bullionville Reduction Works, and lastly the deprivation of our daily mail.

Alex. Thompson is providing for the wants of the people of Pioche during the warm weather, having just received a carload of Salt Lake Beer, Soda and Sarsaparilla, which he is disposing of at \$2.50 for a dozen bottles.

Somebody says that a wagon maker who had been dumb for years picked up a hub and spoke. A blind carpenter on the same day reached out for a plane and saw, and a deaf shepherd went out with his dog and herd. These are all solid facts.

Every boy and girl should subscribe for "Our Animal Friends." The price is only 10 cents a copy or \$1 a year. The June number is filled with interesting matter regarding the treatment of dumb animals. The office of publication is at New York City.

Ayer's Hair Vigor has no equal, in merit and efficiency, as a hair dressing and for the prevention of baldness. It eradicates dandruff, keeps the scalp moist, clean and healthy, and gives vitality and color to weak, faded, and gray hair. The most popular of toilet articles.

It is stated that Chicago is overrun with idle men and women, some of whom are on the verge of starvation. The prospect of employment at the World's Fair has drawn thousands to that city. They had very little money, which they soon spent, and now they are suffering.

The rain which has fallen over this section the past few days is of inestimable benefit. It will make good grass for the cattle and sheep which feed on the ranges and bring joy to the ranchers. If silver were only restored to its place the outlook for our people would again become bright.

An exchange says that a young lady who had been married over a year, wrote to her mother of late father, saying: "We have the dearest little cottage in the world, ornamented with the most charming little creepers you ever saw." The old man read the letter and exclaimed, "Twins, by thunder!"

A correspondent of the Salt Lake Tribune says that U. S. Marshal McGarry and Sheriff Morris last week arrested a batch of unlawful cohabiters at Paragonah, Iron county, and captured Bishop William Jones, S. Barton and Jos. Barton; also their plural wives, all with babies under eight months old.

Captain J. A. Mellon of Yuma, Ariz., accidentally shot Edgar M. Hadden at Riverside, Cal., a few weeks ago. Young Hadden died last week. Capt. Mellon has been captain of the Gila steamer for many years plying between Yuma and El Dorado Canyon, and E. M. Hadden, the unfortunate young man, was a nephew of C. H. S. Morris, the well-known mining man of this section.

Dr. Campbell reports the young son of Mr. Dupont, who was so seriously injured last week, by being kicked in the head by a horse, as doing remarkably well, and if nothing unforeseen happens he will be around all right in a few days. At the time of the accident it was thought the injuries would prove fatal, but Dr. Campbell has handled the case in such a skillful manner that the boy is now beyond any danger of serious results.

THE KEYSTONE INCORPORATED.

Good News from the Nevada Southern Railroad.

Deputy Recorder Harrison yesterday received a letter informing him that articles of incorporation of the Keystone mine at Good Springs had been forwarded to him for record, the amount of stock and names of officers are not known, as the papers have not yet arrived. The company have let a contract to haul 1000 tons of ore from the mine to the terminus of the Nevada Southern Railway, near Vanderbilt.

The Gold Bronze mine in Vanderbilt has been sold to Haggins and Tevis, the great California capitalists, for a large sum. Preparations are already being made to do an extensive amount of work on the mine.

This is indeed good news for that section, as the incorporation of the Keystone and the interesting of such men as Haggins and Tevis in the mines, means work for hundreds of men and consequent prosperity to the camps.

A telegram from Needles states that \$450,000 of bonds of the Nevada Southern railway branch line from Blake have been sold in New York city, and it is thought work will be pushed on to Good Springs and Pioche at once.

WEDDING BELLS.

Marriage of Mr. John E. Ferguson and Miss Carrie Erickson.

Hiko, Nev., July 24, 1923.
Sweetly chimed the marriage bells, forecasting the nuptials of Mr. John E. Ferguson and Miss Carrie Erickson. The happy event took place this evening in the parlors of the groom's residence at Hiko, amidst a throng of friends.

Our prediction of late that "two hearts will ere long palpitate as one, within the handsome frescoed walls of a Hiko residence," has become a happy reality.

Perhaps never before in this county has a wedding been marked with a greater disregard to pomp and fashion, yet none more courteous.

The groom is a young man 27 years of age, well-known and esteemed in business and social circles, and his entering the state of matrimony meets the best wishes of all his old friends.

The bride is a most charming young lady. During her sojourn in Hiko she has made many warm friends.

The bride was dressed plainly, yet charmingly. As she stood beside her lover in the spacious parlors, with the light shining upon her jeweled auburn hair, blue eyes and pale face, refinement and culture were vividly portrayed on her fair features.

The solemnization was performed by Judge Stearns in a concise and happy manner; after which friends and relatives wished Mr. and Mrs. Ferguson many happy and prosperous years of married life.

The mother of the groom, Mrs. Emeline Ferguson, acting as hostess, with her corps of assistants, spread a table with dainties and delicacies which outstripped anything before seen in this section.

Among those present were the Misses Ella Sharp, Mary Sharp, Annie Sharp, Flora Gilbert, Mollie Castle, Clara Castle, Mrs. E. Ferguson, Mrs. Gilbert, Mrs. Castle, Mrs. Mackey, Mr. and Mrs. A. W. Gear, Mr. and Mrs. Gordon, Judge Stearns, Messrs. H. H. Sharp, John Castle, Jr., John Castle, Jr., J. J. Manning, Thos. A. Andrews, K. Ismael, Thos. Mills, Chas. H. Morris, Milton Steele, Wm. Ferguson, Chas. Ferguson, W. Mackey, Chas. Gilbert, A. D. Gear, Chas. Castle, Chas. Manning, Chas. Lampson, John Murphy, Abe Mackey, Ike Mackey, Jas. Pierson, Andy Lavine, Fred. Gilbert, H. P. Thompson.

John E. Ferguson of Hiko is a fortunate man indeed. A year ago he discovered one of the greatest mines in the country, and now he has formed a partnership with one of the fairest ladies in the land. THE RECORD extends congratulations to the newly wedded couple, and hopes their lucky star will always be in the ascendant.

SILVER CHAMPIONS.

Congressman Newlands has been doing heroic work in San Francisco stirring up a sentiment in behalf of the free coinage of silver. Senator Teller says: "The silver men are not demoralized, and we will be ready to meet Mr. Cleveland and his friends on the battle ground in an extra session." Senator Jones is in New York arranging to attend the Chicago Convention. He says a repeal of the Sherman Act cannot pass the Senate unless a substitute is offered satisfactory to the champions of free coinage.

A grand body of representative men will compose the Bimetall League which meets in Chicago next Tuesday. The Governor of Nevada has commissioned Senators Jones and Stewart, Congressman Newlands, Hon. H. F. Bartine, R. B. Higbee, J. A. Yerington and Thos. Wren, as Nevada's delegates.

The people of Montana mean business from the word go. Butte will send 300 men to Chicago to work for the restoration of silver.

Deputy Sheriff Matthews, who some time since went to Utah for one Jack Lund, has not as yet returned with his prisoner. There was some defect in the papers, and they had to be returned here for correction. Lund is charged with the crime of robbery, committed this spring at Panaca. The deputy is expected to arrive with his prisoner to-morrow evening.

FOR SALE.

A fine upright piano for sale at a bargain. Enquire of Mrs. A. Werner, Pioche, Nevada.

HEAVY RAINFALL.

The Adjacent Valleys Suffer Considerable Damage.

This section of country was visited by a heavy rainfall Sunday and Monday. South and west of Pioche the rain fell in torrents. At Panaca it assumed the form of a cloudburst, and considerable damage was done to property. The reservoir was filled with debris which will take a couple of weeks to clean out, and the irrigating dam was carried away. Several gardens in the town were also seriously damaged.

Dry Lake, west of here, on Sunday was covered with water a foot deep for many miles, and assumed the form of an inland sea instead of an alkali desert.

District Attorney Culverwell returned yesterday from his ranch in Meadow Valley and reports the rain of Sunday doing considerable damage in that section. A number of bridges were destroyed in both Clover and Meadow Valleys, roads washed out, and crops injured on several ranches. A number of hay stacks were undermined, the stacks toppling over and the hay carried off by the rushing waters.

NEW YORK AROUSED.

Will Send Delegation to the Chicago Convention.

The Silver State says the recent call for a meeting of the Silver Leagues of Nevada was given to the Associated Press, and it seems even the goldbug papers of New York published it in full, and as a consequence has aroused enthusiasm there, as the following letter from the chairman of the supreme council of the American Industrial and Political Union will explain:

NEW YORK, July 12, 1923.

CHAIRMAN SILVER PARTY, NEVADA.
—Dear Sir: The workmen of New York and the East are with the producers of the West heart and soul on the question of free coinage of silver, and consider it an infamy that the industries of your State should be spurned by Congress and the President by order of Wall or Lombard streets.

We will hold a meeting of our organization Friday evening and elect delegates to the Chicago convention, and we hope that two or three will be able to spend the time and money to attend it. We could send 1000 men from New York to the free silver men's meeting at Chicago August last if our men were bankers or members of the chamber of commerce, but as we are workmen, who are the victims of the financial system of robbery in New York as well, or more so, than you are in Nevada, we can scarcely earn enough to live on and to raise and care for our families.

If the mine owners, merchants and manufacturers of Nevada and Colorado were wise they would send a delegation of their best men East to hold meetings in our large cities and arouse the masses on this question and secure their aid and co-operation. It is the East that needs education and organization.

If I had the means I would charter a train of ten or twenty cars and take to Chicago a delegation of the leaders of the workingmen and business men of New York, Boston, Philadelphia and other Eastern cities, representing a million workers and toilers, who, with bands and banners, stopping on the way to make speeches and take on delegates, would make such a demonstration that the whole East would be aroused, and the West and South so cheered and enthused that no enemy of the people would dare to pass a bill to repeal the purchase of silver or against free coinage.

Yours,

W. A. A. CARNEY, Chairman.

WILL THERE BE WAR?

Everything points to the commencement of the long-threatened war between the European powers. France in bulldozing Siam, is treading on the corns of John Bull, and the result may be a general entanglement of all the Great Powers. If war should break out, the silver question would at once be settled and the American Congress need have nothing to do with it, as silver would immediately jump to par. War is generally considered an evil, but just now the evil would do away with a greater one.

Governor Markham has appointed ex-Governor Perkins Senator from California, to serve the unexpired term of the late Senator Stanford.

Since the 1st of January nearly 200 National banks have closed their doors, against less than fifty for the same period last year. The number of failures for the last week is the largest ever reported for a like period, 527 against 308 the week before.

Commissioner J. W. Haines says the Nevada Commissioners are particularly anxious to have our farmers send exhibits of fruit and grain to the World's Fair. The new crop now coming on will be needed to keep the exhibit up to its proper standard. Send anything on earth that will advertise the resources of Nevada and try to get as much benefit as possible out of the \$10,000 expended.

NEVADA NOTES.

The Reno Journal has discontinued taking the Associated Press telegraphic report on account of poor service and exorbitant rates.

Sol Hilp has been appointed Postmaster at Ely, Nev., vice W. B. Graham removed. So we learn from a press dispatch from Washington—News.

Of eleven applications for teachers' certificates in Elko county, only one succeeded in obtaining a first-grade certificate and two received second-grade.

Down at Carson Sink there is located quite a colony of Adventists, who strictly observe Saturday as a day of rest. The community uses neither liquor or tobacco.

A. Laigues, who lived on the Comstock for thirty years, died at San Francisco on the 15th inst. Jack Kearns, another old-timer of the Comstock, died near Iowa Hill, Cal., on the 14th inst.

According to Warden Bell's quarterly statement, filed on the 31st of May, there are at this time in the Nevada State prison 97 prisoners. Of these 74 are State prisoners and 23 belong to Uncle Sam.

The Virginia Chronicle says the grand jury found a true bill against W. N. Parsons for the crime of murder. Parsons killed a poor man for picking up a cast-away shirt, and should have been hung on the spot.

The Mason Valley Tidings, which has been running four months, will undoubtedly suspend. The editor announces that unless the citizens guarantee cash receipts of \$100 per month for one year he will "shut up shop."

The Reno Journal says five patients have been admitted to the Inmate Asylum since the first instant, and twenty-one since the first of the year. There are now in the asylum 190 patients, being within one of the largest number of inmates in the history of the institution.

The White Pine News says that Frank Pippanna, a native of Italy, aged twenty-seven years, was killed in the Huntington (Cornell's) mine, on the east side of White Pine mountain, July 13th, by a rock weighing 800 pounds falling upon him. He was dead when taken out of the mine.

Times were dull here previous to the depreciation of silver, but now the condition is deplorable in the extreme, as there is no employment here of any kind for the laboring classes, and if no relief is afforded them in the next sixty days, the wolf will be at the doors of many deserving persons.—Eureka Sentinel.

MINING NOTES.

The Robust mine, on the east side of Robinson canyon, owned by R. A. Riapa and W. R. Thomas, has been bonded for \$10,000 to Salt Lake parties.—White Pine News.

The law imposing a duty of four cents a pound on pig-iron went into operation the first of the month. Now, if tin can be produced in commercial quantities in the United States, is the time for its development. If 5,000 tons a year be not produced within the next two years, tin will go back to the free list.

Last Saturday was the 8th of July, and that day J. F. Parr was driving to the Syndicate mill with a load of ore and actually got stuck in a snow drift. With the assistance of every idle man in town he managed to dig out his wagon and proceeded on his journey without further incident.—Bodie Miner.

The San Francisco Report says a committee of the principal managers of the Comstock mines are trying to arrange a reduction in the cost of transportation, supplies and milling, as well as in labor, salaries, rents and other items of expense. Several meetings have been held, but nothing definite has yet been done.

The Bodie Miner says: The familiar tooth of the Standard mill whistle is no longer heard, and many a miner will miss its sound in the morning and will have to rely upon other means of waking up in time for work. The mill is now run by electricity, and everything is working smoothly and satisfactorily. By the substitution of electricity for steam as motive power it is thought the company will make a saving of about \$18,000 a year in fuel and lights.

Unprejudiced mining men, who have made a very careful examination of the Harqua Hala mining district, venture the opinion that it will become the greatest gold producing section of the Pacific Coast. New mines are being constantly opened, and it is a rare exception that one of them does not develop ore of very high grade and astonishing large bodies. It is a forbidding appearing country, which fact doubtless accounts for its slow development; but since it has become known that gold is so generously distributed throughout its rugged hills, prospectors have braved the many hardships incident to their calling and are now beginning to realize some return for their labors. Within the next few years it is believed that the output of the Harqua Hala will astonish the mining world.—Arizona Enterprise.

What Nevada's Silver is Doing in England.

A dispatch from London says that on Saturday last Mrs. John W. Mackay gave a party at her residence in Carlton House Terrace, at which his Grace the Duke of Edinburgh and the Ambassadors from the United States, Italy and Spain were present. The house was kept refreshingly cool by means of enormous blocks of ice, over and through which currents of air passed by means of concealed mechanism, resulting in a delightful temperature. The hostess was dressed in rose-colored brocade and sparkled with diamonds.—Virginia Chronicle.

The dispatch does not mention the fact that had it not been for the now despised white-metal dug out of Nevada's soil, that free lunch could not have been given.

AUCTION SALE

Elegant Furniture

The complete Household Furniture in the residence of August Werner, on Meadow Valley street, Pioche, will be sold at Public Auction on

Saturday, July 29, '93

Sale to commence at 1 o'clock p. m.
